

RX 70-22

RX 70-25

RX 70-30

RX 70-35

RX 70 Technical data.

Diesel and LP gas forklift trucks

This specification sheet to VDI Guideline 2198 only gives the technical figures for the standard truck.
Different tyres, other masts, additional equipment etc. could give different figures.

				STILL	STILL	STILL	STILL
Characteristics	1.1	Manufacturer		RX 70-22	RX 70-22 TDI-PD	RX 70-22T	RX 70-25
	1.2	Manufacturer's model designation		Diesel	Diesel	LP gas	Diesel

Overall concept:

Engine powered four wheeled counterbalance forklift truck with front wheel drive.

The overall height of the truck supplied as standard is suitable for standard 8'6" containers.

Drive.

- Engine-electric drive with hybrid technology.
- Modern diesel and gas engines with 3-phase generator.
- Gas truck with regulated 3-way Cat*.
- Drive axle with enclosed 3-phase drive motor.
- Wear-free multi-disc brake running in oil bath.
- Hydraulic engine fan.

Ergonomics.

- Generously laid out driver's workplace.
- High driver comfort and operating convenience due to optimal arrangement of all controls.
- Excellent visibility to all sides.

Safety.

- Low truck centre of gravity and an articulating steer axle for the best stability.
- High residual capacities even at high lifts.
- Excellent driving stability around bends - no electronic aids required.

Environment.

- Extremely low fuel consumption in all work cycles.
- Low emission of contaminants, complies with Guideline 97/68/EC Stage 3a.

Service.

- Long maintenance interval - 1000 operating hours.
- Quick fault identification in the event of damage due to computerised diagnostics.
- Optimal accessibility for maintenance.

Technical features:

Driver's workplace.

- Low, easy entry step.
- Long hand grip on overhead guard for different gripping heights.
- Large footwell with vibration inhibiting floor covering plus automotive arrangement of the pedals.
- Hydraulic servo steering with small steering wheel, ergonomic off-centre position, offset to the left.
- Narrow steering column without cumbersome display instruments.
- Central display of the drive direction plus change of drive direction in the field of view.
- Large display and operating unit to the right of the driver's workplace.

Selectable drive parameters.

- Acceleration and braking of the truck can be carried out with just the drive pedal.
- Five drive stages adjustable by the driver.
- Individual setting of speed, acceleration and braking within each drive stage.
- Intelligent drive characteristics with engine speed reduction when the truck has finished accelerating.

Electrical system.

- Designed in modern CAN bus technology.
- 12 Volt electrics.
- High-speed bus for drive unit regulation.
- Dedicated CAN bus for lighting and peripherals.
- Cable sets sheathed in corrugated tubing with water tight plug connectors.

Mast and hydraulics.

- On demand delivery from hydraulic variable displacement pump for the working and steering hydraulics.
- Separation of hoist hydraulics and drive, so no inching required.
- Wide construction, open telescopic mast with and without full free lift and as a Triplex variant.
- Clear view fork carriage with open frame profile.

*Standard or optional equipment

Additional equipment features (Optional):

Truck equipment.

- Superelastic or pneumatic tyres, single or dual versions.

Engine.

- Gas truck with alternatives of gas bottle or tank.
- Regenerative soot particle filter in the counterweight or as a replaceable filter system.
- Wide core radiator and additional air filter for use in environments containing dust or fibres.

Cab equipment.

- Modular construction cab with front, rear and roof screen.
- Rear mounted damped doors with large opening angles and windows sliding in opposite directions.
- Parallel screen wiper with large wiped area for front and rear screen, with screen washer as standard.
- Rear screen heater as standard.
- Unbreakable exterior and interior mirrors.
- Comfort seat variants with cloth cover, air sprung, seat heater, lumbar support, extended backrest.
- Radio/CD player housed in the interior lining of the overhead guard.

Controls.

- Drive actuated by two pedal controls.
- Actuation of the hydraulic functions by Joystick or Fingertip control.

Electrical equipment and drive control.

- Tempomat.
- Automotive style lighting also approved for use on public highways.
- Working spotlights front and/or rear on the overhead guard.
- Components of the Materialflow Management System (MMS).
- FleetManager - Driver identification and control, analysis of truck operating data and accident recorder.
- Camera systems for mast and reversing.

Mast and hydraulics.

- Auxiliary hydraulics for actuating functions on attachments.
- Various fork carriage widths and fork lengths.
- Attachments to suit each load.
- Hydraulic accumulator to damp shocks in the hydraulic system.
